VOL. XXXVI No. 23

WAINWRIGHT, ALBERTA, WEDNESDAY, APRIL 29th, 1943

Price \$2.00 Per Year In Advance

Mrs. Fred Skinner Passes Away in Hosp.

Margaret Isabelle, the beloved wife of Mr. Fred Skinner of Wainwright, passed away in the local hospital on Tuesday, April 20th after a lengthy illness, at the age of 72 years.

The deceased lady, who had been a sufferer for some years, came to Wainwright with her husband from her home in Lancashire, England, some 31 years ago, and after a residence in town of eight years, they moved out to their present farm holdings south of Greenhills.

Surviving the deceased are her husband and two sons and one daughter (Fred of Wainwright, William of Greenhills, and Mrs. W. Duperon, of Chilliwack, B.C.). Two sisters and three brothers of the Edgerton district are also left to mourn.

The funeral took place on Thursday last, with McLeod's parlors in charge. Service was conducted at the United church by the pastor, Rev. A. D. Richard, following which interment was made in Wainwright cemetery; pallbearers were Messrs. W. Jackson, A. Plater, B. Sharp, B. Nichols, A. Jerram and T. Hissett.

Floral tributes of love and respect were received from:—The Family, Brothers and Sisters, The Lundstrom Family (Hugheenden), Mr. and Mrs. J. T. Alexander and Family, Mr. and Mrs. F. Aykroyd, Mr. and Mrs. W. Jackson and Family, Mr. and Mrs. A. Hutcheson and Family, Mrs. E. Jackson and Family, Mr. and Mrs. A. Plater and Family, Mr. G. Smith and Family, Mr. and Mrs. A. Sharp, Ray and Irene, Blake and Helen, The Coles, Mr. and Mrs. T. Lissmore and Family, Mr. and Mrs. W. Brunner and Family, Mr. and Mrs. W. Washburn.

CARD OF THANKS
Mr. Fred Skinner and Family wish to thank most sincerely all the kind friends and the hospital staff and doctors for their help and attention during the illness and passing on of the late Mrs. Skinner; also for the many floral tributes of affection to her memory.

Pleasant Pageant Is Presented By W.M.S.

The W.M.S. of the United church presented an Easter program in the church on Thursday evening last. The story of "Easter Morning" was portrayed by members of the C.G.I.T.: Audrey Smith, Lenore Wright, Iris Schlitt, Betty Schumacher and Hazel Clark.

The sacred drama, "The Challenge of the Cross" was given by Mrs. Washburn, Misses Fern Leggett, Ivy Wilson, Betty McNally, Bada Nordstrom, Dolly Morris, and Mona Gauderton.

A fitting climax to this was the solo "The Old Rugged Cross" by Mrs. C. McKenzie.

Nearly a full church was present and expressed appreciation of the program.

United Church Was Crowded For Easter

Filled to overflowing on Sunday morning last, the United church (appropriately decorated for the occasion) the service which was in charge of the pastor, Rev. A. D. Richard, was truly an inspirational one.

Special music, rendered by the Junior choir under the leadership of Miss B. Nordstrom, was all appropriate for the occasion, and the sermon topic likened the Blessed Easter morn to a new awakening; a new day; a new chance; a new idea; a new life.

Members of the R.C.O.C., who are at present stationed in Wainwright, attended this service for their Easter church parade.

During the service, six new members of that faith were added to the church rolls by baptism, the ones being John Stewart Rattray, Donald Cameron Hume, Lorne Austin Kinghorn, Kenneth Christian Henry Borch, Mary Lynn Paton and Phillip Lee Valenau.

At the evening service the church was again crowded to capacity, and the members of the I.O.O.F., Lodge and the Rebekah Degree of that Order, attended in a body to celebrate the 124th anniversary of their organization.

In addition to giving his hearers an "Easter Message," the pastor spoke on "The Real Idea of Christian Brotherhood," and two special anthems by the senior choir, assisted by Mrs. J. Telford (organ) and Mr. Alec Adams (violin), were splendidly rendered.

Especially appropriate to the Easter festival was a vocal duet by Mrs. W. S. Clark and Mrs. G. Clark, and a soprano solo by Mrs. A. Gray, both of which numbers were very pleasingly rendered.

No Meat With Meals Cates etc., Each Tues.

OTTAWA.—"Meatless Tuesdays" will start in all Canadian public eating places on Tuesday, May 4th, the prices board announced Monday. The ban on meat, part of Canada's meat rationing program, will apply each week from midnight Monday to midnight Tuesday.

Commencing May 4, no meat may be served Tuesdays in restaurants, hotels or institutions. "Meat" is described in the board's announcement as "any edible product from cattle, calves, sheep, lamb, and hogs." Milk and milk products are exempt and fish and fowl may be served. The only form in which meat may be served will be in soups of meat extracts.

The "meatless Tuesday" measure is a prelude to general meat rationing which will begin in May.

All those registered as quota users must observe meatless Tuesdays. Boarding houses which are not registered as quota users but, like householders, buy rationed foods on ration book coupons, are not obliged to have meatless menus on Tuesdays.

Organizing For Town "Fastball" Leag.

Plans were made at a meeting held in the Beaver Lumber Co. office last week, for the formation of a "Fastball" league for Wainwright for the coming season.

Officers elected for this were:—J. Lundberg, pres.; M. D. Meade, sec. E. Sundset, treas.; Messrs. Bond and Smith were appointed as a games committee, and Mr. H. A. Koch as a press correspondent.

It is planned to have at least five teams—High school and Town one each, and three from the men in the park—games to be played on Sunday afternoons and Monday and Thursday evenings, the matter of a diamond being left with the games committee.

It was the opinion of those present that the sport of baseball can be revived in Wainwright and district, and here is the opportunity of all interested to get behind the movement.

Brown Coupons Will Be For Meat Ration

Each brown spare coupon in ration book 2 will be good for about one pound of meat under the new scheme of meat rationing to be launched shortly. Brown spare coupons are double—that is there are two number one coupons and two number two coupons, and so on. Thus every person can buy half a week's supply at one time.

Numbered coupons for the amount of meat each entitles the consumer to have will be used. If the consumer wishes to buy half a pound of sausage and complete the order with cooked meat, the butcher can weigh it out and the other coupon may still be used later in the week to complete the two pound ration.

"Farm For Victory" Campaign Started

The campaign to organize Alberta "Farm for Victory" committees throughout the province is now in full swing.

The Alberta farm for victory program is designed to make known to all farmers in the province the details of the national and international plans to greatly increase 1943 food production.

The provincial committee has defined 27 zones which correspond roughly to the areas covered by the district agriculturists, and in each zone it is planned to set up a committee, to include in its membership, farm leaders in that particular area. The district agriculturists are to act as secretaries in each zone.

AIMS AND OBJECTIVES
The aims and objectives of the provincial body have been outlined in a seven point program: Greatest possible production of essential foods for war—for peace; effective use and distribution of available manpower; maximum use of all farm machinery and equipment; recognition of the need for quality in production; elimination of factors leading to waste; a plan of continuing production; a safe guard for home and community.

Detachment of R C.O.C. Arrive Here

In order to accomplish preliminary work at the camp here a number of men of the Royal Canadian Ordnance Corps arrived over the week end in charge of Lieut. G. LeStrange, formerly of Victoria.

These are now temporarily housed at the curling rink, and will no doubt soon be busily engaged in arranging things at the big camp-site in the park.

Included in the initial arrivals, who arrived as the advance party last week were Sergt. Currie of Drumheller, and Ptes. H. Daniels, J. Davies, F. Finch and V. Griffin, all of Toronto, and N. Potter, of Winnipeg.

Fourth Victory Loan Drive Seeks \$100,000 From District

Wainwright and District is being asked to subscribe to the Victory Bond campaign which opened on Monday last to the tune of \$100,000. This is considerably more than the total realized in the last Victory loan which was conducted last October, and a very substantial increase over the quota set for this district in the previous bond loans sold.

The whole Dominion of Canada is asked to raise the total of One Billion One Hundred Million dollars, which of course will greatly increase the demand in every area. Attention is called to the fact that the First Victory Loan Bonds are now selling at a premium, thus proving the safety and value of the investment.

A more advantageous offer is made to farmers in this campaign, whereby, if unable to pay cash, they may put up one-tenth cash at the time of application, and pay the balance of the total subscription within the next six months. No regular instalments are enforced. Instalment payments appeal to townships on regular salary basis, but are of little value to the average farmer whose returns do not come in with regularity.

Fertilizer Assured By Wartime Control

Wastefulness in the use of fertilizer should be avoided for never have there been so many improved production agents been so valuable to us and to our Allies, writes Jean Racine in the March issue of C-I-L Oval.

Describing the recently implemented wartime restrictions designed to assure equitable distribution of farm fertilizers he points out that the situation demands the co-operation of everyone concerned—the farmer as well as the manufacturer. The priority of the public interest over that of individual needs should be recognized.

Distribution is now being carried out in a perfectly fair manner and despite certain rising costs in labour and raw materials manufacturers have actually lowered their prices.

In point of fact, Canada this year will have the lowest priced fertilizers of any of the United Nations.

The important role of fertilizers in promoting the greatly increased agricultural yield demanded by wartime needs is indicated by the following figures: one ton of fertilizer produces increases of 115 bushels of corn, 200 bushels of potatoes, 79 bushels of wheat, or if it is applied to pasture land, 5,000 pounds of milk.

Rumours to the contrary, amateur or Victory gardeners can do their gardening with complete equanimity—the bags of fertilizer for general use, such as "Gardelite", remain at their disposal.

Kitchen Equipment Is Measured In Weapons

It takes the equivalent of the aluminium in 7,700 pots and pans to construct an entire pursuit plane.

One ordinary refrigerator contains enough metal to make three machine guns, 81 refrigerators contain metal enough for a light tank.

The iron from ten kitchen stoves provides steel for a jeep.

In six large ash cans is enough metal for an anti-aircraft detector.

Treat your kitchen equipment with consideration. Take care of what you have.

A record number of communicants attended the special Easter communion service at St. Thomas' (Ang.) church on Easter Sunday when the services were in keeping with the festival, and the rector, Rev. L. Brabant, was in charge.

Mr. and Mrs. A. Moan journeyed over to Bawlf last week end to visit with relatives there.

Young Local Couple Joined in Matrimony

On Good Friday, April 23rd, at the home of the bride's parents, a very pretty wedding was performed. Before the fireplace (which was decorated for the occasion with daisies, Easter lilies and fern) when the Rev. A. D. Richard united in marriage, Della Margaret Cotton, elder daughter of Mr. and Mrs. E. J. Cotton, to Albert Edward Rogers, youngest son of Mrs. A. Jerram of Wainwright.

The bride, escorted by her father, who gave her in marriage, entered to the wedding march played by Miss Marguerite Brunner, and looked very charming in a rose two-piece dress, with a corsage of shaded orchids and fern.

The bridesmaid, Miss Florence Cotton, sister of the bride, wore a turquoise two-piece dress with a corsage of rose-buds and fern. The best man was Mr. Ivan Pigeon.

A reception to forty guests followed the ceremony, the table being set in white linen and centred with the three-tiered wedding cake flanked on either side with pink candles.

A toast to the bride was offered by Mr. Allan Treffry.

Mrs. O. R. Hannah and Mrs. Allan Treffry poured tea, and serveurs were the Misses Marguerite Brunner, Rita Jerram, Betty Batchelor and Ellen Wilkins; all young friends of the bride.

For her honeymoon trip, the bride changed to a brown tailored suit with rose hat and blouse and brown accessories. The couple, on their return, will reside in Wainwright.

Shower For Young Bride

On Wednesday last Mrs. Freed entertained a number of the ladies in honor of Miss Ellen Wilkins, a bride of this month.

The afternoon was pleasantly spent with contests and games, being in charge of Mrs. Stott, after which the guest of honor was "showered" with many beautiful and useful presents. The youngest member of the gathering, Miss Marlene Hornberger, very ably presented her present.

A delicious lunch was served by the hostess at the close of the afternoon.

Expected Heavy Demand for Poultry

Poultry is one meat that will not be rationed when meat rationing goes into effect in May. This means, say officials of the Poultry Division, Dominion Department of Agriculture, that the demand for poultry meat which is already large, will be substantially increased. With only limited supplies of poultry in cold storage the increased demand can only be met by increased production.

The Department points out that poultry meat can be quickly produced. Small chickens can be developed for market by proper feeding and management in two months. Light roasters up to a weight of 3½ to 4 pounds take four months to produce. In the past the usual practice of producers has been to rear one crop of chicks annually, but last year many producers reared two crops, marketing the first early in the summer and the second for the fall and Christmas trade.

An extension of this practice is indicated in the current year if the demand for poultry meat is to be adequately met.

In meeting the demand for meat, the fact that there is also an unprecedented demand for eggs should not be overlooked, states the Department. In addition to the domestic requirements there is a large export contract with Great Britain to be filled and the indications are that the demand for eggs will increase as time goes on.

There never was a time when judicious culling of flocks could be more profitably practised, the Department explains.

SPECIAL NOTE

The Alberta Department of Health issued a warning Friday concerning the consumption of water. Owing to heavy spring run-off and flood conditions throughout the province, there is a grave danger of contamination in wells. The Department urges all who have reason to suspect their water supply to send samples for analysis to the Provincial Laboratories, Edmonton. Inspection and analysis is free, so inquirers pay only the express costs.

War Costs Canada \$10,000 A Minute

Montreal.—"To keep Canada to the forefront of this titanic struggle for freedom is costing our nation \$10,000 every minute of every day," said R. C. Vaughan, chairman and president of the Canadian National Railways, in an appeal to the 92,000 employees of the system to support the fourth Victory Loan issue. "Only part of that vast sum can be secured through the normal channels of revenue. The balance must come—and it MUST come—from the people through their purchase of war bonds and war savings certificates."

All soldiers of the Canadian Active Army will have dental treatment completed before retirement, discharge or reverting to Reserve status, it was announced by National Defence Headquarters. The regulation will not apply, however, to soldiers who have served less than 90 days except in cases of infection or accidental injury to the teeth or jaws which have occurred during the period of enlistment.

Sonja Henie is the peak of form on skates in the feature "Sun Valley Serenade" at the theatre next week; Monday through Wednesday.

Discharged Men Asked To Apply for Badges

OTTAWA, April 22nd—Discharged or retired soldiers of the Canadian Active Army are urged to apply to the Department of National Defence, Ottawa, giving their present address so that the War Service (Discharged) Badge may be mailed to them.

Several thousands of men who left the Service before February 1942, when the War Service Badge was first issued, cannot be located. Relatives and friends of such former soldiers are asked to communicate information of this award to them.

The lapel badge, in the form of a shield, surmounted by a crown, contains three red maple leaves on a silver background, with the words "General Service". On the reverse side is inscribed a serial number to aid in identification, if lost.

In five years, Trans-Canada Air Lines planes flew more than 22,000,000 miles, equivalent to 80 trips from the earth to the moon.

"KISS ME, CORPORAL"

John Bethune, writer, and Andrew Allan, producer, discuss with Winnifred Renworth a sequence in the first act of "Kiss Me, Corporal," a new musical comedy to be broadcast for the first time May 3, at 10:30 p.m. CDT (9:30 p.m. MDT) over station

CBK, Watrous, and stations of the western network. The melodies and lyrics for this new show are by Miss Renworth, while John Bethune has collaborated in producing the dramatic portion of the work.

Editorial —

VICTORY BONDS MEAN LIBERTY! AXIS BONDS MEAN SERVITUDE!

One public organization in the province of Ontario in publicizing the Fourth Victory Loan Campaign among its members, reduced its thinking to the following words:

"It takes more than taxes to conquer the Axis."

It is interesting to observe how plain ordinary words are often grouped to drive home simply a very important truth. We can take the greater part of Finance Minister Halsey's able budget speech, analyze it, and find that the sentence quoted above sums up Mr. Halsey's thinking remarkably well.

If all Canadians thoroughly understood that all our taxes, heavy though they may be, are not sufficient to give our boys in uniform what they need to batter down the Citadel of Berlin, the successful sale of Fourth Victory Loan Bonds, totalling \$1,100,000,000 is assured.

Our Canadian heroes will not travel three quarters of the way, to Berlin and then call off their mission. Neither will the folks back home stop short of the full financial objective needed for Canada's complete war effort. Tax payments take us only half way. Bond purchases will enable us to go all the way.

The Bomber Press in England

AT CANADIAN MILITARY HEADQUARTERS

After meeting the men who control the destinies of Canada's overseas forces, one becomes convinced that each is the perfect man for his particular job, and there begins to be a feeling of admiration for the judgment of the powers that selected them.

This seems to be particularly true of the Senior Officer at Canadian Military Headquarters, Major General the Hon. P. J. Montague, C.M.G., D.S.O., M.C., V.D., who made a Companion of the Honorable Order of the Bath in the New Year's honours list.

We met him soon after our arrival in England, and he became extremely popular with the two weekly editors when he remarked that he once used to type for Bill Fry in the Dunnville Chronicle office. He went on to say that he was glad to welcome the weekly newspaper representatives because he still swears by and not at the weekly newspapers. Without them, he declared, there would be no historical records, and they represent the real power, the men from the farms. He regretted the loss of the files of the Monck County Reform Press and the Grand River Sachem.

In his talk with the editors, General Montague emphasized that there was not an ounce of politics in the Canadian Overseas Forces. He also praised the hospitals in this war.

Major General the Hon. P. J. Montague was born at Dunnville, Ont., on November 10th, 1882, and is a descendant through his mother of some of the earliest United Empire Loyalists in the Niagara District. Educated at Upper Canada College, Toronto University, and Osgoode Hall Law School, he embraced a combined legal and military career, and was commissioned a Lieutenant in the 4th Field Battery R.C.A. at Hamilton in 1905.

Moving to Winnipeg, which he now calls his home town, he transferred to the 18th Mounted Rifles, and when the first world war broke out he was a Lieutenant in the Fort Garry Horse. His combined legal and military training made him a valuable officer. He had a distinguished record in the last war, and was decorated three times and was five times mentioned in despatches.

After the last war, he re-organized the Fort Garry Horse, and is now its Honorary Colonel.

Equally outstanding was his rise in the legal profession. In 1932 he was appointed to the Court of King Bench for Manitoba.

At the outbreak of the present war he took the Headquarters personnel overseas in 1939 and is now Senior Officer at C.M.H.Q., and Judge Advocate General. In this position he is the highest legal authority both for the R.C.A.F. and the Canadian Army Overseas. The bomb-scarred building in which Canadian Military Headquarters is housed is usually referred to as "Fort Montague."

Not only Dunnville and Winnipeg, but all Canada should be proud of him.

"Fort Montague" or C.M.H.Q., situated close to Canada House, was a place that the editors frequently visited. On the outside there is little to suggest that it is a military building, the entrance is protected by a heavy brick buttress, and in the doorway stands a sentry.

Inside, all is hustle and bustle. Just inside the entrance, to the right, is the Public Relations Office, in charge of jovial Major Wm. Abels, Major Abels was a Canadian advertising executive who went to England some years ago to popularize a well known brand of soup, previously unknown in England. How well he succeeded is a story in itself.

The staff is made up of a grand bunch of men, including Capt. Gibb, Lieut. Wm. Austin, and Lieut. A. M. Stinton, Lieut. Austin travelled with us, and looked after us in a most efficient way during most of the six weeks we were overseas. We frequently referred to him as our "keeper", and grew to have a very high regard for him. It must have been a trying ordeal to look after twelve editors with twelve different temperaments for six weeks, but "Bill" never let anything ruffle his serene good nature.

Lieut. Stinton, who comes from Calgary, was our photographer, and both as a photographer and travelling companion, he was "tops".

On our first visit to C.M.H.Q., we were taken deep into the basement, where our photographs were taken individually for our various papers. Probably the most insignificant pass we had was the one issued by the British Ministry of Information. This bore our photograph and a number of signatures. That pass, we soon found out, would work wonders, and take us any place. On one occasion, I was visiting some relatives in a restricted area, and unknowingly tried to return on a day when only those holding a priority card could travel. That little pass not only allowed me on the train, but got me on board ahead of anyone else.

The R.C.A.F. has its own Public Relations Office in the R.C.A.F. Headquarters in another part of London, and here are Squadron Leaders R. MacInnes and Roger Irwin, and P.O. Clare, the last named being a travelling companion of ours for about three weeks.

C.M.H.Q. does not show many signs of the air raids, but on at least one day during the blitz, General Montague's desk was covered with bits of masonry blown there by bombs which landed in the neighborhood. On one side of "Fort Montague" now stands a temporary one storey building erected on the site of a large building which was demolished. Another bomb landed just across the street. Today the bomb scars in the vicinity are more or less removed even if repairs and replacements are not completed.

Hints for the Household

APRIL RECIPES FOR RATIONERS

Here are some recipes that lend themselves to the present rationing program, as they require a minimum of those valued "points" about which we are all so concerned at present:

Orange Mint Cocktail
6 small, rather sour oranges
Powdered sugar
Fresh mint
3 tablespoons lemon juice or 3 tablespoons pineapple juice
2 tablespoons sugar
Separate the orange into sections and remove the thin skin with a pair of scissors. Chill thoroughly, place in glasses, sprinkle with powder of sugar and add the lemon juice mixed with pineapple juice or sugar. Sprinkle with chopped mint and garnish with an upright sprig of mint in the center of the glass.

Clam Broth
12 clams in the shell
2 cups water
Paprika
Purchase large clams in the shells. Scald them thoroughly with a brush, place them in a kettle with cold water, closely covered, and bring water to the boiling point. As soon as the shells have opened, remove them from the broth. The clams may be served at once, in the half-shell, or taken from the shells and kept to be served in any form desired. Let the broth settle, strain, being careful not to pour out the sandy sediment, reheat, add a little red pepper or paprika, and serve hot. Twelve good-sized clams should make enough broth for six persons, but if there does not seem to be sufficient, add a little boiling water or milk. Clam broth seldom needs added salt. Water wafers heated in the oven, or divided crackers toasted on the broken surfaces, buttered and heated for a few minutes in the oven, are generally served with this broth.

Clam broth may be served hot or cold, in cups with a heaping teaspoon of whipped cream, into which has been beaten a little salt and pepper, placed upon the top of each cup. The cream adds richness to the flavor of the soup and increases its nourishing properties.

Cauliflower and Shrimp Salad
1 cauliflower
Mayonnaise dressing
Lettuce
Cooked shrimps
Cook the cauliflower in boiling water drain and put it head down into a bowl. When cold, place it stem down on a shallow dish and cover with mayonnaise. Garnish with lettuce arranged to resemble the leaves of the cauliflower, and add little clusters of shrimps.

Roast Chicken
1 roasting chicken
Stuffing
Fat
Salt and pepper
Flour
Wash, singe and draw the bird, rub it with salt and pepper inside and out, and stuff with any desired stuffing, chestnut stuffing and celery stuffing are particularly good. Truss and tie the fowl. Grease it well, dredge with flour and place it on a trivet in a double roasting pan in a hot oven (500 deg. F.) to sear quickly so that its juices may not escape during the roasting. After fifteen minutes, when the skin is well seared, cover the pan, lessen the heat to 350 degrees and cook until the breast is tender. If cooked in an open pan, as soon as the flour has been nicely browned, baste well, adding a little fat or water if necessary, repeating the basting every ten minutes. Allow fifteen to twenty minutes per pound for roasting. Serve with giblet sauce.

Stuffed Onions
6 medium to large onions
1/2 cup chopped ham or green pepper
1/2 cup soft bread crumbs
Fine dry bread crumbs
1/2 cup milk
Pepper
1/2 teaspoon salt
1 tablespoon fat
Remove a slice from the top of each onion and parboil the onions until almost tender. Drain, and remove the centers, leaving six little cups. Chop the onion that was scooped out and combine with the ham and soft crumbs. Add seasoning and refill the onion cups. Place them in a baking dish, cover with crumbs. Add the milk and bake in a quick oven (400 to 450 deg. F.) until tender.

VITAMUNITIONS
We can put health in every lunch

Post Toasties Fish Loaf
3 cups Post Toasties, crushed fine
1 1/2 cups milk
2 cups cooked fish, flaked and chopped
1/3 cup sour cream
1 tablespoon chopped parsley
1 tablespoon chopped chives or minced onion
1 tablespoon lemon juice
1/4 teaspoon thyme
1 teaspoon salt
Dash of pepper
2 eggs, well beaten
Combine Post Toasties and milk; let stand 10 minutes. Add remaining ingredients, except eggs, and beat thoroughly. Fold in beaten eggs. Turn into well greased 1-quart loaf pan and bake in moderate oven (375 deg. F.) 1 hour. Serve with white sauce flavoured with small amount of mustard. Serves 6 to 8.

Orange and Shrimp Salad
2 cups cooked shrimp
2 cups orange sections
2 tablespoons minced green pepper
1/2 cup French Dressing
Lettuce or other greens
Clean shrimp and toss together with orange sections and French Dressing. Arrange on 6 individual

EASTER TIPS
AND RECIPES
Easter still stands for joy and rejoicing with millions of men and women in this war-torn world. The loved ones yet at home will gather around the table as of yore. New recipes and new hints will be needed by mothers who on special days worry more than ever about rationing. May I offer the following aids?

SAVE YOUR SCRAP RUBBER

Plan Now To buy your VICTORY BONDS!

box with an orange or bake a cake like the following for our home or lunch-box menu as often as we desire:

Honey Orange Cake
1/4 cup shortening
1/4 cup sugar
1/4 cup honey
1 egg, well beaten
2 cups all-purpose flour
2 teaspoons baking powder
1/4 teaspoon soda
1/4 teaspoon salt
1/4 cup finely shredded orange peel (3 or 4 oranges)
1/4 cup orange juice
1 teaspoon grated lemon peel
Cream shortening. Add sugar gradually, add honey, creaming constantly. Beat in egg. Sift dry ingredients thoroughly (flour, soda, baking powder, salt) add orange peel and lemon peel. Combine dry ingredients and orange juice alternately to creamed mixture, beginning and ending with flour mixture. Spread in well greased cake pan. (Mixture is quite thick). Bake at 350 deg. F. about 45 minutes. Serve plain, iced, or with hot fruit sauce.

Vegetable Scrapple
1/4 cup finely diced celery
1/3 cup diced onions
1/2 cup diced carrots
2 tablespoons diced, green pepper
1 teaspoon salt
3 cups boiling water
1 cup Grape-Nuts Wheat-Meal
Add vegetables and salt to boiling water and cook until vegetables are tender. Drain; measure liquid and add water to make 3 cups. Combine liquid and vegetables and bring to a boil. Add Grape-Nuts Wheat-Meal gradually and boil 3 minutes, stirring constantly. Pour into greased 9 x 4 x 3 inch pan. When cold, slice and saute in small amount of fat until lightly browned. Makes 4 to 6 servings.

Where Canadian Meat is Going
Need for rationing of meat is borne out in the statement that 40% of our meat from inspected slaughterings in 1943 will be required for the United Kingdom.

Canadian produced meat also goes to the armed services, ship's stores, Red Cross, New Foundland, British West Indies and the Alaska Highway.

Canada must also be prepared to meet increasing demands for meat shipments to the United Nations.

These needs must be met first, then civilian requirements are considered, state officials of the Wartime Prices and Trade Board.

Conscientious Objectors To Work On Farms
OTTAWA—Plans to use conscientious objectors on farms, and in essential industries were outlined to the house of commons by Labor Minister Mitchell.

Provision for this change in procedure was made in an order-in-council passed April 7, Mr. Mitchell said. Objectors will have the option of taking essential work of this type or serving in alternate service camps.

Farmers will pay for the labor of conscientious objectors at the rate of \$35 to \$40 a month and industries will pay the current wage rates.

The objectors themselves will receive \$25 a month with board and lodging. The surplus of their earnings will be paid to the Canadian Red Cross.

AN OPEN MESSAGE TO DEPOSITORS of the BANK OF MONTREAL

In this time of national emergency our country is making demands of its citizens such as we have never known before. And rightly, for we have never been faced with a crisis such as this war has brought to our doorsteps.

You — our depositors — have responded loyally in many ways, and we, at the Bank of Montreal, take particular pride in the splendid way you have bought Victory Bonds. We take pride, too, in the record of service of this Bank to its customers and to Canada. For a period of over 125 years — which has embraced the troublous times of eight wars — our Bank has continued on its steady course, always confident that Canada would win through to a future that would far outshine its record of the past. This faith has always been justified . . . it is still as strong as ever.

Today, in this time of national crisis, we appeal to you to support the nation's war effort by drawing on your savings and earnings to the limit of your capacity to buy Victory Bonds. We shall be glad to place them in safekeeping for you at a very small charge. If you must have cash at any time, Victory Bonds are always acceptable as security for a bank loan and the arrangements are simple and prompt.

Your country needs your help NOW through your support of the Fourth Victory Loan.

Save all waste
Fats and Bones
CANADA URGENTLY NEEDS THEM
HERE'S WHAT TO DO:
1 You can take your fat dripping, scrap fat and bones to your meat dealer. He will pay you the established price for the dripping and the scrap fat. If you wish, you can turn this money over to your local Voluntary Salvage Committee or Registered Local War Charity, or—
2 You can donate your fat dripping, scrap fat and bones to your local Voluntary Salvage Committee if they collect them in your community, or—
3 You can continue to place out your Fats and Bones for collection by your Street Cleaning Department where such a system is in effect.

News of Your Army

(from Dept. of Public Relations)
OUR CANADIAN ARMY
OTTAWA—National Defence Headquarters has just announced important new regulations affecting payments of dependent's allowance.

When a member of the armed forces is reported "missing" or "killed", his dependents who were receiving the usual Dependent's Allowance and Assigned Pay, will continue to receive approximately the same amount for a period of six months. There will be no reduction of these payments while efforts are being made to discover, in the case of a man reported missing, whether he is still alive, or if confirmed that he has died, while adjustments are proceeding to settle his estate, and decision is being reached as to his dependent's entitlement to pension.

Commencing the month following that in which the casualty is reported, the usual amount of the dependent's allowance and the assigned pay then being paid (up to a maximum of 15 days pay of rank) will continue for six months but if the regular monthly pension rate would be higher than these monthly payments then the pension rate will be paid.

Should, however, a pension be awarded during the six months period and this be less than the monthly dependent's allowance and assigned pay, the difference for the remainder of the six months will be made up in a lump sum.

Should an officer or man reported "missing" subsequently be found living, payment of the former amounts of dependent's allowance and assign-

ed pay will be resumed and his account will be adjusted as may be necessary.

These new regulations are designed to give dependents a period of not less than six months in which to make financial adjustments made necessary by casualties.

John J. Burton-Willson went overseas in 1915 as a private. By the end of the Great War he was a sergeant-major. Today he is a full Colonel, commanding the Royal Canadian Army Service Corps training centre at Red Deer. This is one of the most interesting training centres in the West, with many hundreds of men passing through it every month. It has fine equipment and a very efficient instructional staff.

About a thousand all ranks will be sought among experienced railwaymen now in the Army to be transferred to the new Corps of Railway Troops which Lieut.-Colonel F. E. Wootton, formerly with the Canadian Pacific Railway, is organizing.

Camouflage is a word which carries special significance in war. Developments in the art of camouflage have been little short of phenomenal. Recently a number of Canadian officers attended a three-day lecture and demonstration course in Brooklyn, N.Y., the first of a number of similar visits to United States camouflage training schools. Canadian training establishments are keeping abreast of the newest techniques both in the United Kingdom and in the U.S.A.

It seems there are not enough dentists in Canada to do all the work

on the teeth of soldiers and civilians as well. So the rationing of sugar comes into the picture. Eating less concentrated sugar as in jams and candy and soft drinks will—according to the senior officer of the Canadian Dental Corps, Brigadier Frank O. Lott,—reduce the total number of toothaches in the Dominion. Sugar can be linked with the rate of tooth decay. People can help by faithful brushing of their remaining teeth.

One of the privates in the latest contingent of Canadian Women's Army Corps to reach England has a Lieut.-General for a father. She is Pte. Charmain Sansom. Her father is Lieut.-Gen. E. W. Sansom, commanding a Canadian Armoured Corps.

The popular playing-coach of the Currie Army hockey team at Calgary, Sergeant Tommy Anderson, has been promoted to be Second Lieutenant. He has played for Philadelphia Detroit and the New York Americans in the NHL. He won the Dr. David A. Hart trophy last season for being the player most valuable to his team.

The adjutant of the unit one young Manitoba recruit goes to may be in for some surprises.

A university graduate, the recruit was before the Army examination board in Winnipeg and was asked—

"What is an Adjutant?"

Without the blink of an eye, came the answer:
"An Adjutant is a large bird of uncouth appearance. It has an almost bald head, a tremendous capacity for eating, and acts as a public scavenger. It can swallow a cat with ease."

R.C.A.F.

"You are the best-trained airmen in the world. The record proves it. When you get overseas you will be flying the best aircraft. There can be only one answer. You're bound to win."

Those were the final words spoken to his brother airmen of the R.C.A.F. by Flying Officer George Beurling, D.S.O., D.F.C., D.F.M., and Bar at his last appearance in Canada before leaving for overseas. They were spoken in a huge recreation hall at an embarkation depot on Canada's east coast in the presence of nearly 1,000 aircrew trainees waiting to cross the ocean to fly against the enemy.

The ace of Malta spoke with conviction. He had just wound up a tour of Royal Canadian Air Force units across Canada. He saw fledgling pilots earning their wings on the prairies. He saw air gunners blasting at drogues high over Lake Ontario. He watched fighter pilots "scramble" after an imaginary alert at a Pacific base. In snowbound northern Quebec he watched other fighter pilots of the R.C.A.F. perform the same fantastic gyrations he himself employed while knocking down twenty-odd Hun planes over Malta.

The conclusions he reached were his own. George Beurling talks the language of flyers. As he admitted in several-score appearances before lads training in Canada, he prefers to fly much more than to talk about it. But he enjoyed his trip—every minute of it, he said, in spite of his distaste at feeling that he was on

exhibition—because it allowed him to meet hundreds of lads like himself, with the same interests and with the same ambitions.

You can't travel and live with this 21-year-old, as the writer did, for five weeks without being impressed by the singleness of purpose which has made him master of his craft. With him, flying is a religion. He cannot tolerate inefficiency in the air any more than a good Christian can tolerate heresy.

As he told nearly 4,000 trainees at the biggest technical training school for groundcrew in the British Empire, care of aircraft ranks in importance with actual efficiency in the air.

"Without question, the men who looked after our planes in Malta played just as big a part as did the pilots in saving the island," he said. "In my own case, those boys worked for hours on end, worked until they were ready to drop, so that my plane would have an extra few miles per hour advantage. If there were any real heroes in Malta, they were the groundcrew."

Flying Officer Beurling performed a magnificent service when he undertook to give Canadian trainees the "gen" on what a fighter pilot is likely to encounter overseas. With complete modesty he told, and retold, stories of aerial warfare over the most-bombed island in the world. He told, as well, of his mistakes—of the time he mistook a Messerschmitt for a Spitfire and was nearly blown to atoms for his error, and of the time he had to bail out, because, he said, "I wasn't looking" when another Me. 109 sneaked up on his tail.

"Those are mistakes you can't afford to make; not even once," he told his listeners. "I was lucky to get out of them with a whole skin. Maybe you won't be so lucky, so just don't make them. You won't either, if you stick to your training here, pay attention to what instructors tell you, and take care of yourself physically."

That's the gist of what George Beurling had to tell the lads at schools across Canada. Now he has gone back to the war.

Soon he hopes again to be in the cockpit of a Spitfire, blasting the Axis out of the sky. Or the R.A.F. may retain him in Great Britain for a time to assist in training. Wherever his duties take him, you can depend upon George Beurling making a good job of it.

CHAINS—more than a mile of them—that will help to bind Hitler, Hirohito and Company are shown above in the stock section of a Canadian National Railway shipyard, the only shipbuilding plant in North America operated by a railway company. They will form part of the equipment of 10,000-ton cargo vessels that are being built by war workers of the National System at this plant to carry foodstuffs to Great Britain or tanks, guns and munitions to the Allies fields of action. Canada built 81 of these ships in 1942 and many more will slide off the ways in Canadian shipyards this year and in 1944. The 10,000-tonners require 240 fathoms, or 1,440 feet, of anchor chain. Two complete chains of 120 fathoms each are used for the port and starboard "hooks." These chains come from the manufacturer in fifteen fathom lengths. Each link is 13 1/4 inches by 7 1/2 inches and the diameter of the steel is 2 3/4 inches. The 2 anchor

chains weigh more than 32 tons. While chain is required for anchors, rope and wire are used for towing, and mooring when the ship is docked. Lower right: the photographer found a coil of rope being checked. Each ship needs two coils of rope seven inches in circumference and each of 30 fathoms length for mooring. There are also two coils of heavier rope, 10 inches in circumference and four fathoms in length, used for towing.

To Help Him NOW . . . and When He Comes Home

YOUR SON (or your neighbor's son) is in battle dress perhaps . . . on a ship at sea, or flying a bomber. You are proud of him, but you pray for the time when he will be back home. You will do anything you can, you say, . . . everything you can . . . to bring him home safe, and bring him home soon.

Well, here is one thing you can do. You can buy Victory Bonds.

When you buy Victory Bonds you help your boy to do the big job he is doing now. You help to make sure that he has everything he needs; better equipment than the enemy has. And you are saving money to have a better home for your boy to return to.

HAVE MONEY FOR HIM WHEN HE COMES HOME

He will want to work with new farm implements . . . new equipment . . . to replace things that may be worn out. He will have new ideas to improve the farm. He may want to experiment with new crops, new stock, new farming methods. He's young and ambitious as you want him to be.

He will need money to do things he plans to do. Victory Bonds . . . money saved now and loaned to Canada to help win the war . . . will be yours and his to use when the war is over.

BACK THE ATTACK

Buy all the
VICTORY BONDS
you can

WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with half-yearly interest at the rate of 3% per annum until maturity. A Victory Bond is the safest investment in Canada. The entire resources of the Dominion stand behind it. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest. A Victory Bond is an asset more readily converted into cash than any other security.

New C.P.R. Engines Keep Canada's War Goods Rolling

The first of 20 powerful new freight locomotives of the Mikado 2-8-2 class being added by the Canadian Pacific Railway this year. Engine No. 5417 was delivered on March 31 and put into immediate service in the all-important job of keeping Canada's war materials rolling on schedule. Completion of the contract held by Canadian Locomotive Company in Kingston, Ont., will bring to 84 the number of new locomotives added by the Canadian Pacific since the out-

break of the war, with all of them sorely needed to meet business demands which in 1942 showed a 49.8 percent. increase over 1939. Their construction marking the use for the first time of considerable Canadian-made boiler shell plate, so far as is known, the new Mikado-type locomotives also have in their makeup Canadian-made tender tank plate in quantity for the first time. Before the war these materials came from the United States and from England but the substitutes were

necessary to avoid delay in delivery of the locomotives which were ordered in January of 1942.

The first new Mikado-type locomotive is shown here, with a close-up of two of its 63-inch driving wheels. It will haul up to 5,500 tons or the equivalent of a 100-car train, depending on the grades, and is so counter-balanced it can be used for heavy passenger work when required, such as the hauling of the long troop trains which must go through on time.

WAINWRIGHT, WEDNESDAY, APRIL 28th, 1943

THIS WILL TAKE

COMBINED EFFORT

Spring is here—or at least just around the corner, so there's a tendency to forget all about coal troubles. Warnings sent out last summer were given but little heed. But, on the other hand, we're informed, some individuals who did place early orders didn't secure delivery. All of which is a mighty poor incentive.

It was an unhappy state of affairs, and that is putting it mildly. The local coal moguls, as we have already maintained, are averse of all blame but that fact doesn't simplify the outlook. Here's what we received this week from the Field Representative of the Wartime Prices and Trade Board:

Compelling necessity of co-operation of the consumer public in obtaining supplies of coal for next winter at once in order to avert shortages is urged by W. J. Taylor, regional coal controller.

"Unless the consumer public co-operates now and helps us to make up the slack season which will occur during May and June, the situation next year will be as acute if not more so than last," the Controller warns.

"Mr. Taylor advises schools, churches, public buildings and the civilian population to begin at once to store coal in piles and bins, and to contact coal dealers to see that they place orders now to fill their storage space. This, with available production in cold weather to replenish the stocks would minimize the threat of a possible shortage he says.

"We must keep these mines operating steadily. If we lose April and May production as we did last year, the suffering will be far greater. The mines cannot produce sufficient coal from July through March to supply needs.

"Military camps and line companies have already commenced to stock pile their supply, but their storage is not sufficient. We must have orders from domestic and stoker sizes coming in at regular intervals from the consumer."

Different secretaries and municipal authorities who applied for emergency coal during the past season have all received informa-

tion from the Controller, stating the need to avert a similar situation next season.

This message definitely implies, particularly in the closing paragraph that the municipalities have a definite war-time duty to perform—and not merely to fill up the civic bin. It's a duty, we respectfully submit, to look to the wants of the citizenry in general in approaching emergency. And the Board of Trade could render valuable service in helping to formulate a modus operandi.

It is all very well for officials who probably have not been forced to blow on their fingers to tell Mr. Average Citizen what he should and must do; they probably have funds available to fill up the bin while many a citizen must scrape and scratch in the good old summer time, and with all ham't a bank credit to carry him along for such a plunge of between one and two hundred dollars. It's all a very good thing—for those who can pay.

There are other aspects—and one of them is the matter of storage facilities. A winter's supply of coal makes a sizeable pile. It would choke many a basement or back yard. Protective measures are not available in many homes against the ravaging effects of heat and other elements—with an ultimate loss of time, money and fuel content long ere the immortal Santa pays his mid-winter call.

We submit the situation is worthy of collective consideration—and NOW!

NOTES

Are you interested in knowing what has become of the very last Red Cross Cook Book? It is in one of His Majesty's mail bags; en route

to Forteau, Labrador, which is the site of one of the Grenfell Mission Hospitals, where Miss Ethel Brown is located. We hope the cook has good luck with her doughnuts!

The regular monthly meeting of the Executive of the Wainwright and District Branch of the Red Cross will be held in the Work Room on Monday, May 3rd, at 8:15 p.m.

A shipment containing 307 pieces was recently made to headquarters. St. Joseph's Academy are having a Musical Recital in the Auditorium on Tuesday, May 11th, at 8:15 p.m. Proceeds are for the Red Cross. Mark the date on your calendar.

We gratefully acknowledge receipt of the following amounts:—
H. Walker and Son \$80.00
Greenfields, campaign funds 5.00
For Prisoner of War Boxes—
Gerald Victory Club, Hong Kong 5.00
Anonymous 2.50
Country Supporter 2.50

Reasons Stated For Rationing Ammunition

Ottawa—Two thirds reduction in the metal available for small arms ammunition for civilian use is the reason for the recent rationing order, says P. G. Jones, administrator War-time Prices and Trade Board.

The supply situation in Canada has grown progressively worse, copper alloys are in short supply, vital materials for civilian ammunition are used for war purposes and the men who fight must get it fast, according to the administrator.

There is still provision for essential users to obtain small arms ammunition—the farmer who scares the sneak thief fox in his chicken pen can take a shot at him—no hunter need go hungry for lack of ammunition to bring down game on the trail. Police, prospectors, trappers and others are also among those considered essential users for its use.

Avoid Overdose of Iron to Young Pigs

In feeding chemical iron to young pigs as preventative against anaemia it is important to take care to give the correct amount since an overdose may cause illness and death. The younger and smaller the pig the greater the danger that an overdose will cause trouble, say Live Stock Production officials of the Dominion Department of Agriculture.

With spring here, it should soon be possible to obtain soda or earth from land which has not been used as a pig-run or pasture. Placing a sod or shovelful of this earth in the pen daily or in a box or creep where young pigs can get it without being disturbed by the sow is an old method of feeding iron to pigs but it is one which is still recommended. This is probably simpler than feeding each pig an individual dose of chemical iron and has at least one other advantage as it helps to teach the pigs to eat solid feed. Once they are eating solid feed freely, there is little if any need for feeding additional iron in any form. To make sure that sufficient iron will be consumed, each sod or shovelful of earth may be sprinkled lightly with a solution of iron sulphate. This solution is made by dissolving one teaspoonful of sulphate of iron (copperas) in one quart of water.

SEA CADET ORDERS

SEA CADET CORPS
R.C.S.C. "EXETER"

Ships Company will parade at the corps quarters, Federal building, Tuesdays and Fridays of each week during the month of May, 1943, at 10:30 hours.

All ratings to turn in greatcoats and blue caps of Tuesday or Friday parades, April 27th and April 30th, and will be issued white caps. White dickeris must be worn with summer rigging.

Sunday, May 2nd—Ships company will assemble at the C.N.R. Depot at 10:20 hours and will parade to St. Andrew's Presbyterian Church for the morning service. A full company is requested.

Friday May 7th—Inspection by the Area Commandant R.C.N.V.R. will take place; this is a compulsory parade. Further instructions as to inspection routine will be given at the regular parades prior to this date.

C. WILBERHAM,
Lieut. R.C.S.C. "Exeter"
Executive Officer.

Forty three cents out of every dollar spent by the National System last year went on wages.

More than 30,000,000 revenue passengers were carried by the C.N.R. last year.

Dr. E. W. Neely
Director, Agricultural Department
North-West Live Elevators Association

Trees for Prairie Farms

During the severe snow storm experienced over a wide area of the prairie provinces in March this year, the value of established shelterbelts in reducing wind velocity and controlling snow accumulation around farm buildings, in fields, and along roads was well illustrated.

Farmers! Now is a good time to make plans to eliminate some of the inconveniences experienced then, and to put shelterbelts to work to your advantage. See to it that snow accumulates where it will benefit your alfalfa or hay field, your garden area and your fruit plantations, and not pile up in the yard and on the road.

Additional benefits are obtained through reduced evaporation, improved appearance, increased bird life, reduced soil drifting and much better gardens, and a supply of fence posts and fuel.

Broadleaf trees for planting on bona fide farm property are available from The Forest Nursery Station, Indian Head, Saskatchewan, in almost unlimited number, FREE of CHARGE, express charges COLLECT. Millions of these go out to thousands of planters each spring. Are YOU taking advantage of this service?

For evergreen trees there is a charge of \$1.00 per 100, and to any one planter in any one year a minimum of 50 trees and a maximum of 500 trees will be supplied; planters pay express charges.

Broadleaf and evergreen trees are NOT shipped together.

Before these trees will be supplied planters must prepare land for them by a careful summer fallow for one year. Keep this regulation in mind this summer but your enquiry for trees for 1944 planting should be mailed to The Forest Nursery Station, Indian Head, Saskatchewan, NOW.—Contributed by John Walker, Superintendent, The Forest Nursery Station, Indian Head, Saskatchewan.

NATIONAL SELECTIVE SERVICE

Men Born From 1902 to 1924 Must Prove Compliance With Mobilization Regulations When Asking Permits to Seek Employment

BY Order pursuant to National Selective Service Civilian Regulations, a change is now made in the issue of permits to seek employment.

After April 30, 1943, permits may be refused to any man born from 1902 to 1924, inclusive, who has reached 19, unless he presents satisfactory evidence of compliance with Mobilization Regulations, in one of the following forms:

(a) A certificate of discharge from His Majesty's Forces during this war; or (b) a rejection slip issued by the Army on application for enlistment; or (c) a certificate of medical examination from the Registrar of a Mobilization Board; or (d) a postponement order certificate from the Registrar of a Mobilization Board; or (e) if born from 1902 to 1916 inclusive, a statutory declaration on form available in employment office, that he is not a "single person" under Mobilization Regulations.

Documents in (a), (b) and (c) above need be presented only the first time a permit is sought after April 30, 1943, unless asked for by a Selective Service Officer. Documents in (e) and (d) above must be presented each time a permit is applied for.

(1) Male persons applying for permits by mail should forward with their applications the evidence required, except (c) above.
(2) A Selective Service Officer MAY furnish a permit without first being handed evidence, where the applicant's services are required for immediate employment, or where a permit is asked for by mail, but in these cases the evidence must be presented to the Selective Service Officer later, usually WITHIN THREE DAYS of the issue of the permit.

All men born from 1902 to 1924, who have reached age 19, are urged to co-operate with your Employment and Selective Service Office. Bring your documents with you.

EDGERTON

The Directors of the Edgerton Co-operative Association request all holders of shares in this organization to send in their share certificates to the Secretary so that they may be replaced with new shares.

The Victory Wheel draw held at the Drug Store Saturday gave Larry McLeay, with No. 10, a \$5.00 War Savings Certificate.

Mr. Raymond, who has joined the Active Forces, was home on leave.

Aubrey Blair and family from Edmonton were visiting here.

Among other visitors, are Peter Milne, Jim Watson from Edmonton, and Elnie Jackson from Ontario.

Mr. and Mrs. Sid, Pawsey returned home after an absence of a couple of weeks.

Mrs. Darby is visiting in the city.

Alec Calvert had to be taken to the Wainwright hospital during the week, feeling very much under the weather.

Mr. Gilmour and family from Hughenden were visitors at his brother's home at the Bank House.

Bernard Crane received news of the arrival of another daughter Saturday, and made the trip to the city early Sunday morning to see his wife and the wee addition.

Don Pawsey from Amiak was visiting here over the week end.

St. Mary's W.A. held their Easter Tea Saturday, but the patronage was rather smaller than usual.

George Phillips returned home from the hospital Tuesday, and is using crutches. He is still off duty.

Mr. and Mrs. Meade from Wainwright were visiting the latter's parents Mr. and Mrs. John Challenger.

All the local trucks have been kept busy lately hauling in the freshly threshed grain.

Phyllis Lacey was visiting her sister Mrs. Jimmy Miles.

Jim Stoddard, who is driving one of the Creamery trucks, has moved into the shack next Sawyer's garage.

Joey Miles and Dianne returned from Wetaskiwin where they had been visiting with her parents Mr. and Mrs. Davidson.

Rev. A. A. Court returned from the Glendon district Thursday.

Mr. Greer from Vancouver is visiting his sister Mrs. Tranter.

All the canvassers for the 4th Victory Loan are organized for this district, and they hope to be kept very busy filling in applications. This is going to be a big job but all are hoping to make a good showing by the end of the time allowed.

Albert Wilson has now left Edgerton to work at his Blacksmith business at Chauvin.

GREENSHIELDS

Mrs. Morissette has returned to our hamlet after a business trip to Edmonton.

Mrs. Murdoch of Edmonton is visiting with her sisters Mrs. Morrison and Miss Miller.

A large crowd attended the Jackson sale on Wednesday last and report a very successful sale. The ladies of the G.W.S.L. wish to thank all for the splendid patronage at lunch.

Miss Patsy White entertained a number of her friends on the occasion of her twelfth birthday on Thursday last.

Sympathies are extended to the Skinner family in their recent bereavement.

Mr. and Mrs. Jas. Steenson journeyed to Kitacooy for a visit with relatives over the week end.

A number of the farmers of the district have started work on the land in preparation for seeding, while others are hard at work threshing last year's crop.

Mr. R. I. Bond moved a building in to Wainwright this week.

Misses Lillian Pfleger, Muriel Hill and June White are home from their respective schools for the Easter vacation.

Mrs. McIntee has received word of the safe arrival of Pat overseas.

Mrs. Rabby and the boys are spending a short vacation with friends at Haight.

Mr. and Mrs. T. Lane were callers at the Whites on Sunday.

The local elevator agents report that the elevators are filled to capacity.

Mr. Chas. Stewart is finishing threshing operations at Hughenden.

Miss Evelyn McIntee is home on two weeks sick leave from her army duties.

HEATH

Mr. and Mrs. Smith returned on Thursday from their visit to B.C.

Miss Dylla Jones is home from her teaching duties for Easter.

Mr. Bert Ford and Miss spent a few days in Edmonton during the past week.

Home to spend a few days leave with Ed Turnbull of the R.C.A.F., was his parents.

Mr. and Mrs. Mel Dixon spent Easter Sunday with the Collin Dixon family at Vermilion. Mrs. Mockford accompanied them to visit her daughter at Vermilion.

George Davis of Edmonton spent a couple of days visiting relations here.

Mrs. Strand and family are back from Edmonton for the spring threshing of their crop.

AUBURNDALE

Among those at their respective homes for the holidays were Miss Shirley Trevithick from Wainwright, and Keith Hetherington from Vermilion.

Mr. and Mrs. Eddy Emsland and son of Edmonton, accompanied by Mrs. James Little of Clinton, Ont., were Sunday visitors at the home of Mr. and Mrs. A. Arthur.

Mr. Clarence Cox left for his home at Justice, Man., on Wednesday of last week.

Mrs. Dave Bury of Vermilion has been visiting her parents Mr. and Mrs. A. Arthur for the past two weeks.

Threshing is in full swing in the district these days.

Congratulations to Mr. and Mrs. Harold Everett on the birth of a baby daughter on April 21st in the Vermilion hospital.

AC2 Clifford Kennedy spent Easter

leave from his Air Force duties with his father Mr. J. Kennedy.

Mr. and Mrs. Howard Green were visitors at the George Symes home on Thursday last.

Sunday school is again being held at Auburndale United church each Sunday at 3 p.m. Everyone is cordially invited. Our student minister is expected to be here in time to conduct the Mother's Day service.

LAC Vernon Arthur was home on leave with his parents for the Easter holiday.

PASSCHENDALE

Threshing of the 1942 crop is well under way and the land is being prepared for spring seeding.

Miss Martha Johnson has returned to Edmonton and has resumed her studies at Business College.

Born to Mr. and Mrs. Phil Inken (nee Doris Anderson) at the University hospital in Edmonton, on April 22nd, a girl. Mr. Inken is with the Air Force overseas.

Mrs. S. Thomson is spending a few weeks in Edmonton visiting her daughter Mrs. Phil Inken.

Mrs. Roth of Fabyan entertained the ladies of the Sew-and-So Club at her home on April 19th. Those present reported having had an enjoyable afternoon.

WHITE CLOUD

Mr. L. Wallace has been busy sawing wood and chopping grain before spring work starts.

Mr. L. Meyer has been visiting in the district after spending the winter at the coast.

The threshing machines are all busy again finishing up last fall's work.

Mr. Joe Tondou has been helping Mr. Armand LaFrance.

Miss Betty Vegao was home Sunday for a visit.

There wasn't a very large crowd at the card party and dance, but we had fun nevertheless. First prize for the ladies went to Mrs. B. LaVern, second went to Mrs. E. Tierney. Men's first went to Henry LaVern, and second to Mr. Lee Babb.

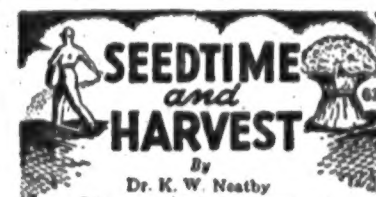

GERALD

Alan Greenway, of the R.C.A.F., spent a week-end at home lately. He was accompanied by Morris Wilson, who is renewing acquaintances in the district.

Mr. J. Perkins spent a few days in the Wainwright hospital last week, but is now home again.

The Mission Band held a special thankoffering meeting on Thursday afternoon. Keith Christopherson presided. The girls in the mission band presented a beautiful pageant "Easter Lily Litany". Miss R. Ruste played Handels "Largo" and Mrs. A. Hamilton spoke on the subject "Thoughts on an Easter Lily." A few visitors were present, and lunch was served.

Easter holidays have started, and Miss R. Ruste has returned to her home near Wainwright.

Ergot of Cereals and Grasses

Ergot is an important disease because it reduces grain yields and, when present in feed grains, may cause acute poisoning, or even death, in farm animals.

Ergot is most noticeable in rye, but also attacks barley, wheat (especially durum) and occasionally oats. The same ergot also attacks many native and cultivated grasses. Ergot bodies (called sclerotia) produced on grasses constitute an important source of infection for cereals. Infected hay crops should be cut before sclerotia have time to develop. Early stages of infection may be identified by the presence of droplets of sticky exudate on the heads or panicles.

Ergot bodies falling to the ground when mature, remain dormant until midsummer and then germinate. Countless tiny spores are discharged and carried about by the wind. The lucky ones lodge in the flowers of grasses or cereals and set up infection resulting in a new generation of ergot bodies.

Control measures include early cutting of infected native and cultivated grasses, and deep plowing of fields on which infected grain crops grew. Ergot bodies can be removed from seed grain by immersing the grain in a solution of common salt consisting of 40 pounds of salt in 25 gallons of water. When the grain is immersed and agitated, the ergot bodies rise to the surface. The grain must then be washed to prevent injury from salt.

Farmers may secure, from line elevator agents, a circular in which this disease is discussed more fully. For additional information apply to Dominion Laboratories of Plant Pathology at Winnipeg, Saskatoon or Edmonton.—Contributed by A. M. Brown, Assistant Plant Pathologist, Dominion Laboratory of Plant Pathology, Winnipeg.

The Minister of Finance of the Dominion of Canada offers for public subscription

\$1,100,000,000

Fourth

VICTORY LOAN

Dated and bearing interest from 1st May 1943, and offered in two maturities, the choice of which is optional with the subscriber, as follows:

Fourteen-year
3% Bonds
Due 1st May 1957

Callable in or after 1954
Interest payable 1st May and November
Bearer denominations,
\$50, \$100, \$500, \$1,000, \$5,000, \$25,000

Issue Price: 100%

Principal and interest payable in lawful money of Canada; the principal at any agency of the Bank of Canada and the interest semi-annually, without charge, at any branch in Canada of any Chartered Bank.

Bonds may be registered as to principal or as to principal and interest, as detailed in the Official Prospectus, through any agency of the Bank of Canada.

Three and one-half year
1 3/4% Bonds
Due 1st November 1946

Non-callable to maturity
Interest payable 1st May and November
Bearer denominations,
\$1,000, \$5,000, \$25,000, \$100,000

Issue Price: 100%

Subscriptions for either or both maturities of the loan may be paid in full at the time of application at the issue price in each case without accrued interest. Bearer bonds with coupons will be available for prompt delivery. Subscriptions may also be made payable by instalments, plus accrued interest, as follows:

10% on application; 18% on 1st June 1943; 18% on 1st July 1943;
18% on 2nd August 1943; 18% on 1st September 1943;
12.64% on the 3% bonds OR 12.37% on the 1 3/4% bonds, on 1st October 1943.

The last payment on 1st October 1943, covers the final payment of principal, plus .64 of 1% in the case of the 3% bonds and .37 of 1% in the case of the 1 3/4% bonds representing accrued interest to the due dates of the respective instalments.

The Minister of Finance reserves the right to accept or to allot the whole or any part of the amount of this loan subscribed for either or both maturities if total subscriptions are in excess of \$1,100,000,000.

The proceeds of this loan will be used by the Government to finance expenditures for war purposes.

Subscriptions may be made through any Victory Loan Salesman, the National War Finance Committee or any representative thereof, any branch in Canada of any Chartered Bank, or any authorized Savings Bank, Trust or Loan Company, from whom may be obtained application forms and copies of the Official Prospectus containing complete details of the loan.

The lists will open on 26th April 1943, and will close on or about 15th May 1943, with or without notice, at the discretion of the Minister of Finance.

Department of Finance,
Ottawa, 26th April 1943.

Buy BONDS For VICTORY

Canadian Garden Service

Soil Preparation

One thorough cultivation before seeds are planted will save hours of labor later on and a good deal of disappointment. Any authority on gardening stresses the importance of thorough preparation of the soil. This applies to both vegetables and flowers.

Assuming the place is fairly level, the first job will be a complete spading, or plowing if it is big enough and possible. Care should be taken to see that all old sod and other coarse vegetable refuse is thoroughly buried, and if possible broken up a bit. Then it is best to cultivate. In small plots a rake will do the work until the soil is broken down as fine as possible. If there is time it is then an excellent idea to allow the garden or at least the later planted part, to rest for a few days to encourage weeds seeds to sprout. The 2nd and third cultivation, of course, will then kill these things easily, making the handling of the garden later on that much easier.

Vegetable Layouts

After the soil is worked up into fine tilth, the earliest of the vegetables may be planted. These may go in rows from 12 inches apart and wider, depending upon the size of the mature plants. Carrots, lettuce, beets, parsnips, etc., can be planted in 12 inch rows, but beans, peas, tomatoes, corn and potatoes will need 18 to 24 inches.

If we are lucky enough to have a tractor or horse for cultivating then, of course, there will have to be more space, and two to three feet between all rows is not too much. Not only because it will be very much neater but will also make cultivation easier, the rows should be absolutely straight and all plantings done along a string.

Thus planted we know where the seeds are and it will then be safe and easy to cultivate even before plants have started to sprout.

Peas, corn and such fairly large seeds are planted about one or two inches deep—fine seed like lettuce and carrots merely pressed in.

Flowers in War-time

Some people may regard flowers as a luxury, but the real gardener emphatically does not. Even in war-time he will find a place for them. To him the growing of beautiful flowers is more than just a hobby or recreation. It satisfies his natural craving to create something with his own hands and out of his own brain. It provides a tonic for war-strung nerves. And of course the actual cost in dollars and cents is negligible. A few packets, at a total cost of a quarter, will provide a wealth of bloom, will turn some drab, neglected corner into a riot of color and beauty.

Through decades of plant breeding and natural selection, flowers have been developed to fit almost any location. There are some which actually prefer those darkish corners. There are stocks, nicotene, etc., specially designed to scent the evening air. Some indeed, like portulaca, actually seem to thrive on neglect.

There are little, short chaps like alyssum and dwarf marigolds and lobelias, specially bred to fit along the front edges of flower beds or to trim walks. There are tall hollyhocks, castor beans, ornamental sunflowers, cosmos and other giants which will make backgrounds and screen fences.

NEXT WEEK—Started plants, lawn work, nursery stock.

New Order Saves

Precious Metals

Bicycles and dry cell batteries— and irons or plumbing equipment— all made from wartime precious metals, are called into active service by administrative branches of the Wartime Prices and Trade Board.

Total saving of over 200 tons of copper and brass per year will be effected through an order of the administrator of heating, plumbing and ventilating equipment. Prohibition of the manufacture of one item among 17 eliminated in plumbing equipment will save 35 tons of copper per year for war uses, or enough for the radio transmitters in 7500 tanks.

Reduction of 60,000 bicycles to be manufactured this year will save 300,000 pounds of steel. Saving by the end of 1943 will be 2,500,000 pounds of raw steel for guns, tanks, and planes, as compared with 1941.

Conservation of zinc will be effected through restricting manufacture of dry cell batteries to two types.

Skillets and griddles, and irons and Dutch ovens are among articles simplified by the administrator of fabricated steel and non-ferrous metals, of the Prices Board. Only highly essential articles of cast iron ware may now be manufactured, and these in fewer styles and sizes. Plating is prohibited, and only unfinished or polished cast iron ware will henceforth be made.

Through such measures as these, materials once used for civilian commodities become weapons.

Rubber Shortage

Nearing Crisis

OTTAWA—Canada is heading into the most critical period of its rubber shortage, Rubber Controller A. H. Williamson said in an interview.

At the moment there is a desperate race to have synthetic rubber in

production before the available stock pile of crude is exhausted, he said, and "It looks as though the stockpile might lose the race before synthetic comes into large-scale production during the fourth quarter of this year."

The situation would be immeasurably worse is the present rigid restrictions—which limit rubber for civilian purposes to 10 per cent of the total consumption—were not continued or possibly made tighter, Mr. Williamson says.

Canada's synthetic rubber plant, located near Sarnia, Ont., will have an eventual production of 41,000 tons a year, 34,000 tons of Buna-S type and 7,000 tons of butyl rubber.

Free Sunday Movies

For Soldiers

TORONTO—J. J. Fitzgibbons, president of Famous Players Canadian Corporation has announced that free Sunday entertainment will be provided for members of the armed forces in five of the company's theatres—at Halifax, Toronto, Edmonton, Victoria and Prince Rupert, B.C. First shows are planned for April 25.

The announcement said the request to present entertainment came from Defence Minister Ralston and plans were completed at a conference between company officials and Brig. James Mens, representing the minister.

Each theatre will present its current program in one afternoon performance ending not later than 6 p.m. The shows will be under supervision of local military representatives and admission will be limited to men and women of the navy, army and air force in uniform and men of the merchant marine.

Help Win the War—Buy War Savings Certificates

A profession of faith

We have faith in Canada that the courage of the pioneers and the spirit which achieved Confederation and linked a continent with the shining steel of railways have laid strong foundations for national greatness and unity.

We have faith in her present—in the part she is playing to save the world from tyranny...in her young men and women who serve on land and sea and in the air...in her workers who labour for more than wages...in every man and woman and child striving for Victory.

We have faith in her future—believing that she is destined to exert an ever-increasing influence in world affairs, and in the shaping of tomorrow, when many will turn to her with new hope.

We have faith in more than the statistics of Canada's bank clearings and her car-loadings, the vastness of

her untapped resources, or even the glorious war record of a people numbering less than twelve millions.

We have faith in a land we love, whose soul speaks to us from every free acre of Canadian soil... in the splendour of the Rockies at sunset, the blue mystery of a Laurentian dawn, the quiet of an Ontario woodlot, the far call of prairie horizons, the sound of surf on the Atlantic shore and the wash of the Pacific tides. It speaks to us from churchyards where Canadian dead lie beneath the tribute of English blossoms...from the popped fields of France and Flanders...from the winged and sea-faring and mechanized epics of a new war.

We have faith in her people... people, noted and obscure, with whom we daily rub shoulders...and by whose united effort, sacrifice and creative vigour the greater Canada of tomorrow will be built.

We have faith in Canada

Every Victory Bond you Buy is an Act of Faith in Canada

FARM NOTES

LUBRICATION OF FARM MACHINERY

The life of bearings and other moving parts on farm machinery is determined largely by the lubrication which machinery receives. Oil and grease lubricate moving parts, reduce wear, act as flushing agents to remove dirt and dust from bearings, and protect exposed metal surfaces when the machine is idle, states W. Kalbfleisch, Assistant Agricultural Engineer, Field Husbandry Division, Central Experimental Farm, Ottawa.

In the lubrication of machines, it is important that the proper lubricant be used, and that lubricants be kept clean. Machine oils have a "sticky" consistency and cling to bearings better than other oils. Used motor oil is satisfactory for lubricating bearings on farm implements, but it must be applied at very short intervals because it does not cling to bearings.

Where oil holes are used for lubrication a small amount of machine oil applied frequently gives better lubrication and wastes less oil than does a large amount applied once or twice a day. The practice of going over the entire machine with an oil can each time the horses stop to rest will undoubtedly prolong the life of moving parts in machines. Oil holes which are exposed to dust may require cleaning with a wire each time the machine is lubricated. Where parts are lubricated by oil cups the oil chan-

nels should be checked to be sure that the grease has not caked in the oil channels. Where a pressure gun is used for applying grease, the lubricant should be forced into the bearings until the old grease is forced out at both sides of the bearings.

In cases where gears or chains are exposed to dirt and sand, less wear may result if these parts are run dry. Drive chains should be washed periodically in kerosene, dipped in light oil drained off and wiped, and then replaced.

Because pressure gun lubrication is more convenient to use and superior to grease cup lubrication, the lubrication systems on many machines have been converted to pressure gun lubrication. Pressure gun fittings as used on cars, tractors, or trucks can often be screwed directly into the bearing casting after removing the oil cup. Where lubrication is by oil holes, it is necessary to drill out the oil hole and tap it to fit the thread on the pressure gun fittings. Sometimes pressure gun fittings are placed in the grease cup caps by drilling a hole in the cap and screwing in the fitting without cutting a thread. Where instruction books for farm machines, tractors or cars are available, the directions as to the type of oil to use and the frequency of applying oil should be carefully followed.

Searle Grain Company, Ltd.

GOOD SEED OATS

There is an unexpected scarcity of good seed oats in the three Prairie Provinces. There is a great demand for Victory and Banner oats, particularly for Victory, which simply cannot be filled. (So much Victory and Banner was caught by early frosts last fall.)

There is, however, one variety of oats of which there appears to be a good supply of excellent seed of high germination, and that variety is VANGUARD.

A large number of authoritative tests made by the Dominion Research Laboratory, and by the "Crop Testing Plan", revealed last year that Vanguard oats yielded about 6% higher than Victory.

The Vanguard kernel has 10% less hull than Victory; an important consideration for feeders. The straw of Vanguard is stiffer than Victory, and in addition, Vanguard is four days earlier on the average than Victory, and so a crop of Vanguard will often just escape early autumn frosts when Victory is caught. (It was so this last year.)

Another quite important advantage of Vanguard is that it is resistant to stem rust, and in areas where rust is prevalent this is also an im-

portant advantage. All in all, then, it would appear that those who cannot secure high quality Victory would do well to try Vanguard.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Argentine corn production is officially estimated at 74,803,000 bushels compared with 555,000,000 bushels last year.—Broomhall reports that the use of wheat is to be prohibited in the production of German bread flour. In future, bread flour will be milled from barley, rye and potatoes. A winter wheat crop of 558,551,000 bushels is forecast by the U.S.A. Department of Agriculture. Last year's crop produced 703,253,000 bushels.

Canada is seeking to increase production of oil-bearing sunflower seed and rape seed.—Russia is planning to increase grain acreage by 9,750,000 acres.—British production of dairy herds has increased 326,000 over the pre-war figure of 4,000,000.

VICTORY GARDENS

A large portion of the vitamins, minerals and bulk required in the daily diet can be supplied from a small garden. Every Canadian householder should aim to have a Victory Garden this year. Those who want early potatoes and vegetables should do their seeding at once, thereby assuring themselves of health-giving foods at low cost during the summer.

The commercial supply of carrots, cabbage, tomatoes, onions, beans green peas and sweet corn is not expected to be adequate to the demand. Along with such vegetables the following should be grown: Lettuce, Swiss chard, broccoli and spinach. These are valuable in the diet, supplying vitamins and minerals necessary to health and vigor. The vine crops—cucumbers, marrow and squash do not fit the small garden and should be grown only where space is abundant.

Plan your Victory Garden carefully so that there will be no waste of space, nor overcrowding. Vegetable and flower seed lists should be completed now and the varieties desired should be ordered from a reliable seed house or your local merchant. If you are not growing your own tomato, cabbage, cauliflower, broccoli eggplant and celery plants, you should order your requirements. A recommended list for your district may be obtained from your Provincial Department of Agriculture or from the Federal Department of Agriculture.

The Health League of Canada urges the planting of Victory Gardens throughout the country because vegetables are essential to good nutrition. But when making out your seed list do not neglect the flowers, Morale and mental fitness are maintained with the beauty of flowers, trees and shrubs. Morale is as vital to Canadian determination to win as a sufficiency of food.

Over 50,000 Cases

B.C. Herring Released

OTTAWA—More than 50,000 cases of grade "A" British Columbia herring will be released for Canadian consumption and will be available in the near future for domestic purchase through an order of the foods administration of the prices board, the board announced last week.

The order fixes maximum prices per case of herring for wholesalers, retailers and processors.

The board said that it was originally intended that the entire pack of British Columbia salmon and herring in 1943 would be taken by the British ministry of food but some adjustments in supplies had been made and the herring packed in tall tins was not required for export.

Alien Land Ban

Act Disallowed

OTTAWA—The Dominion government has disallowed the Alberta Land Sales Prohibition Act, which prohibited the acquisition of land by enemy aliens or Hutterites, a justice department spokesman announced yesterday.

The action was taken April 7, this spokesman said. As a result, the Alberta statute became void.

It was learned that the disallowance of the measure was based on grounds that the matter of dealing with enemy aliens was one which should be limited to action by the federal authorities.

The decision to disallow was based only on the question of dealing with enemy aliens, and the application of the act to Hutterites was not considered, it was understood.

How Does Your Label Read?

Part of Food

In Total War

Foods Administrator K. W. Taylor states that total war means three things:

1. A large part of labor and production energies are diverted to produce shells, bombs, guns and ships.
2. Nations in the front line have had to divert even more of their energies than we have, and are relying on us to supply them with more and more food.

3. People at home are fully employed, working harder and longer than ever before and obtaining larger money incomes, buying and eating more food. Although farmers are producing more foods in most lines than ever before there are some goods shortages in Canada. Thus rationing is inevitable.

RADIOGRAMS — FROM CJCA

Kruschen invites you to Get Happy! This cheery five minutes of music and wit is making a real hit with the listeners. The program is short—just 300 seconds' broadcasting time—but the six performers really make the most of it and cram all the fun they can into the show. Be sure to be on hand every Monday, Wednesday and Friday at 8:55 a.m. for "Get Happy".

CECIL B. DEMILLE, producer and director of "Lux Radio Theatre", has spent 42 years in association with the theatre—30 years in movies. He has directed 75 outstanding pictures in Hollywood and developed many movie stars, including Hal Roach and Gloria Swanson. It was DeMille who first launched the era of Hollywood "Big money" in 1915 when he startled the movie industry by offering Geraldine Farrar \$20,000 to appear in three pictures under his direction. He became producer and director of "Lux Radio Theatre" when the program's origination point was shifted from New York to Hollywood to be at the source of the talent. DeMille wanted. His first Hollywood office was a barn which he shared with a horse, a cow, and an automobile of ancient vintage.

One of CJCA's finest musical programs, WALTZTIME, features Frank Munn and Evelyn McGreggor in songs old and new. They are two of radio's finest singers and the program will thrill you with the beauty and feeling of their renditions of some of your favorites. Each week they sing the current favorites in the way we all enjoy. Be sure to be on hand next Friday evening at 7:00 p.m. for this fine show from CJCA.

MAKES GORGEOUS TASTY BREAD — NO COARSE HOLES, NO DOUGHY LUMPS

Airtight wrapper protects strength and purity ALWAYS DEPENDABLE!

Above are pictured the inconveniences which may result from the use of green wood for heating and cooking purposes. Wood which has been allowed to dry sufficiently causes an accumulation of tar soot in the chimneys, a serious fire hazard. As a stove fuel, it produces an uneven heat which is unsuited for cooking. Owing to the severe wood fuel shortage, many Canadian housewives have been obliged to use this winter's wood. If steps are not taken locally to remedy the situation, thousands will find themselves obliged next winter to use green wood in their stoves and furnaces. This will cause countless cooking disappointments, and a waste of foodstuffs, not to mention the conflagrations which may result from chimney fires.

TRAVEL BY BUS

Here's how you can help with our Nation's Transportation problem:

1. Travel on Tuesdays, and Thursdays — instead of on crowded week-ends.
2. Avoid traveling on holidays, during rush seasons.
3. If you are sometimes inconvenienced, smile it off as a contribution to winning the war.
4. Consult your Agent or Driver for travel information.

WAINWRIGHT

NEWS & VIEWS OF TOWN AND DISTRICT

BORN—To Mr. and Mrs. W. Bonner of Wainwright, at the Wainwright municipal hospital, on April 22nd, a boy.

V—Corpl. A. T. Dalby arrived here last week from his army duties at Camp Borden to spend a short leave with his family here. We are sorry to learn that Mrs. Dalby is still sick at the hospital.

V—The fine weather of the past few days has allowed our farmer friends to get into the fields, and threshing of last year's crop is proceeding nicely—where they can get help for the job!

V—Miss Doris Dalby returned home from Toronto last week.

V—Mr. Bernard Young of Edmonton is in town for a few days, and persons wishing to have their piano put in shape can get in touch with him by phoning the Star Office. He plans to return home on Friday.

V—The New Victory Loan should prove a splendid chance for our Town Council to invest a few thousand dollars in bonds. They'll come in useful later buying a water and sewer system after the war!

V—"The Shores of Tripoli", which is showing for the balance of the week at the theatre (Thurs.—Sat.) is a picture dedicated to the marines who defended Wake Island. This is a feature which is a MUST!

V—At the old-time dance which was thoroughly enjoyed at the Separate School hall on Monday night by a large crowd, the hand-made riding bridge, which was made and donated to the Red Cross by Bud Cotton, was won by Russell Bailey of Heath, with ticket No. 151.

V—As a fitting climax to the combined Holy Week services at the churches last week, Rev. Dr. A. D. Miller, of St. Stephen's college, Edmonton, preached to a full congregation at St. Andrew's (Pres.) church on Friday evening last. All the local ministers assisted.

V—Something should be done, too, with regard to the use of firearms in town by young boys who are seen and heard around with .22 rifles. This action is absolutely against the law, and parents are help responsible by police authorities!

V—The officers of the R.C.S.C. "Exeter" ask the co-operation of the parents and guardians of the boys of the Wainwright Sea Cadet Corps in the fulfilment of the Sea Cadet Orders as set out in this week's issue of the Star.

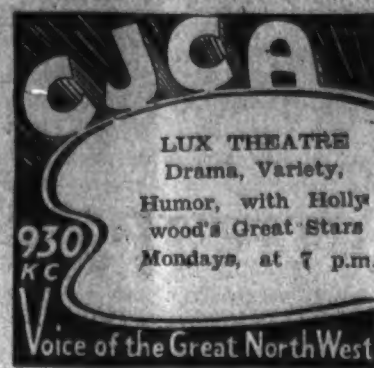

V—Buy Bonds of Freedom rather than wear bonds of servitude.

V—LAC Vernon Arthur, R.C.A.F., enjoyed a week end leave with his parents at Auburndale, while Corpl. Stan Rudd, of the same branch of the services had an Easter leave with his parents in town.

COMING EVENTS

The members of the Catholic Ladies' Aid are announcing a May Dance which they will give in the Separate School Hall on Monday next, May 3rd. The Kent-Glass Orchestra will supply the music, and a good time is assured. Commences at 9:30 p.m. sharp. Admission, 50c.

Lionel McLeod is away to Edmonton to spend a holiday with relatives there.

V—Mrs. Marion Kimble of Calgary was a week end guest of Mrs. J. Welch at her home here.

V—The annual Spring nuisance of cattle around town has started again, and our readers are reminded that cattle-pounds fees and expenses come high. It is against the law to let these animals run at large in town, and owners should profit by this warning!

V—Home to spend the Easter holidays with her mother at Fabyan, Miss Esther King journeyed from Edmonton last week end.

V—To spend a week's leave with relatives and friends here, Gregor McCluskey arrived on the Saturday bus from the city.

V—Among the varsity students who enjoyed Easter with their parents here were Roy Reynolds, Tom Cardell, Alan Dixon, Gerald Nicholson.

V—Miss Gladys Souter is now holidaying with her parents in the Mayfield district.

V—Mr. and Mrs. F. Dixon were in the city to attend graduation exercises at the Royal Alexandra hospital, when their daughter Jean was among the graduates.

V—Mayor and Mrs. Middlemassa drove over to Warburg to spend the week end with their daughter and family there.

V—At a meeting of the local Victory Loan committee, Mr. Jack Sutherland was here from Edmonton, and pep talks and moving picture show were given to put the canvassers on their mettle for the present bund-selling drive.

V—The Tennis Club are pepping up for their summer sport and have been making repairs on the town courts.

V—Miss O. Lilledahl, of the Treasury Branch staff, was a tripper to her parental home at Wetaskiwin for the holidays.

V—Stan Church, who has now returned from service overseas, is visiting at the home of his uncle Mr. Fred Church.
